

DRILLING DIVERTER

Drilling Diverter

Drilling diverter is key component used for onshore or offshore drilling operation. Drilling diverter always works for the surface layer drilling before to use BOP products.

PPGL supplies high quality drilling diverters which are manufactured and tested according to API/ISO standard.

Drilling Diverter

Technical Specifications of Drilling Diverter

Diverter Model	FFZ75-3.5
Bore (in/mm)	29-1/2 (749.3)
Rated Working Pressure(psi)	500
Control Pressure (psi/Mpa)	≤1,700(12) (Recommend ≤0.5MPa)
Stroke of Piston (in/mm)	14 (355)
Seal Range (in/mm)	5 ~ 29-1/2 (Φ127 ~ Φ749.3)
Oil volume to close one set of ram (L/USgal)	238 (63)
