

ARROW BACK PRESSURE VALVE

Arrow Back Pressure Valve

Arrow Back Pressure Valve is an important tool for preventing the blowout in drilling operation. Comparing to other structural valves, Arrow back pressure valves possess following advantages, such as high strength, big flow area, high temperature and pressure resistance, and easily maintenance.

Arrow Back Pressure Valve

Technical Specification of Arrow Back Pressure Valve

Type	O.D.(mm)	Connection	I.D.(mm)	Working Pressure(MPa)
PPGL-BPV229	229	7-5/8 REG	82	70(35)
PPGL-BPV 203	203	6-5/8 REG	82	70(35)
PPGL-BPV 178	178	5-1/2 FH	82	70(35)
PPGL-BPV 168	168	NC50	82	70(35)
PPGL-BPV 165	165	NC50	82	70(35)
PPGL-BPV 159	159	NC46	70	70(35)
PPGL-BPV 121	121	NC38	56	70(35)
PPGL-BPV 105	105	NC31	44	70(35)
PPGL-BPV 89	89	NC26	33	70(35)
