

## FLOAT SHOE & FLOAT COLLAR

### Float Shoe & Float Collar

Float Shoe & Float Collar are used as kind of casing shoe or coupling to produce buoyancy. With advantages of high temperature resistance, good sealing feature and easy connection, Float Shoe & Float Collar can be used to replace guide shoe or casing shoe.

Float shoe and float collar can be used not only in unclassified technical casing, oil layer casing, but also in deep well, extra-deep well and special technology well.

Float Shoe & Float Collar

### Technical Specifications of Float Shoe

Float Shoe Spec. (mm)	O.D. (mm)	Length (mm)	Thread Connection
127.0	141.3	445	API Casing Thread
139.7	153.7	460	API Casing Thread
177.8	194.5	500	API Casing Thread
244.5	269.9	560	API Casing Thread

### Technical Specifications of Float Collar

Float Collar Spec. (mm)	O.D. (mm)	Length (mm)	Thread Connection
127.0	141.3	445	API Casing Thread
139.7	153.7	460	API Casing Thread
177.8	194.5	500	API Casing Thread
244.5	269.9	560	API Casing Thread
